I wanna read in your eyes
that you say yes when you say no

I wanna take a step across this line
till you can feel my love

G#m E B F#
you open the door and it hits to the core

Ain't got no pearls or diamond rings
I only got my heartbeat

but it won't be long and i will wait
and melt inside your heart

you opened the door and it hits to the core

 G#m F# E F#
we went too far way too far
 G#m F# E E
there's no turning back this time
 G#m F# E F#
we went too far way too far
 C#m F# G#m
and you're gonna be all mine

we went too far, way too far
it can never be too far
we went too far, way too far
to find nothing but real love
