A E D E  
Let us go more with love could have driven us out of the prison  
A E D E  
One can find a way to love her, one cant achieve, thats the way it goes lady  
A E D  
When you make me cry you dont have the right, so baby  
E A  
Would you still (be) in love if we together were?  
E D  
What to do right now, she is waiting in the crowd  
E  
I wonder if she asks Are you coming with me?

A E D E  
Should I again go through?  
D E  
Even if you shut the door without thinking before  
A  
I start begging for more  
E  
Should I again go on?  
D E  
Even if its getting worse when theres nothing I can do  
A  
Lets hope love comes through

A E D E  
Get out of here if I know that you fool me with one else on purpose  
A E D E  
One can find a way to ignore, one cannot bear, somehow well soon see lady  
A E D  
When you make me smile then you dont have the time baby  
E A
