Inside Us All - Creed

```
1:
Em                G                       D
   When I'm all alone and no one else is there
                                          Em
Waiting by the phone, to remind me I'm still here
                  G                            D
When shadows paint the scenes, where spotlights used to fall
                                         C
And I'm left wondering: Is it really worth it all?

Chorus:
        G                D               C
There's a peace inside us all, let it be your friend
      G           D           C
It will help you carry on in the end
        G             D
There's a peace inside us all

Intro

2:
Em                    G                       D
   Life can hold you down when you're not looking up

Can't you hear the sound?
                  Em
Hearts beating out loud
                  G                           D
Although the names change, inside we're all the same

Why can't we tear down these walls?
                         C
To show the scars we're covering

Chorus

Solo: C; G; F#/D; F#/D
        C                      G             F# D   F# D
There's a peace, oh, there's a peace inside us    all
      C                     G             F#    D        F# D
Let it be oh, I said let it be, can't it be your friend?

Chorus

C

Outro:
         G              D           F# D
There's a peace inside us all, inside us all
